

SHOBHIT SHARMA

Frontend Developer

📞 +91-7851864873 | ✉ shobhitgs2011@gmail.com | 📍 Kota, India | [GitHub](#) | [LinkedIn](#)

👛 PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience building and delivering **5+ responsive, real-world web interfaces** using React, JavaScript, HTML, and CSS. Skilled in creating modular UIs and enhancing performance using lazy loading, code splitting, and custom hooks. Focused on building interactive, mobile-friendly designs that offer smooth user experiences across devices.

🔧 TECHNICAL SKILLS

Frontend: React.js (Hooks, Context API, Custom Hooks), JavaScript (ES6+), HTML5, CSS3

UI Libraries: Styled Components, Material UI, Tailwind CSS

State & Design: Context API, Local Storage, Responsive Design, Flexbox, CSS Grid

Performance: Code Splitting, Lazy Loading, Memoization

Tools: Git, GitHub, Component Architecture, Dynamic Routing, API Integration

🚀 PROJECTS

VanSafari - Camper Van Rental Web App | Feb 2025 - Apr 2025

[Live Demo](#) | [GitHub Repository](#)

- ✅ Built a React-based web app enabling users to browse, filter, and host vans, achieving a **Lighthouse performance score of 82+**
- ✅ Developed a reusable custom data-fetching hook to prevent unnecessary API calls and improve overall app responsiveness
- ✅ Implemented a global state management system using Context API to handle user sessions and filter logic, reducing the need for prop drilling and improving component structure
- ✅ Implemented a host section where users can view their hosted van income and reviews
- ✅ Designed responsive layouts using Flexbox and media queries, ensuring consistent usability across multiple screen sizes and devices

Pizza Master - Food Ordering Web App | Dec 2024 - Feb 2025

[Live Demo](#) | [GitHub Repository](#)

-  Designed and developed an interactive online food ordering interface using vanilla JavaScript, HTML, and CSS
-  Implemented event delegation for efficient DOM event handling, reducing memory usage on large dynamic menus
-  Built smooth category navigation and scroll behavior, improving user flow through the menu by ~25%
-  Developed fully responsive layouts using media queries and Flexbox, ensuring multi-device usability

E-commerce Platform Clone: Meesho | Jan 2025 - Mar 2025

[Live Demo](#) | [GitHub Repository](#)

-  Recreated pixel-perfect clone UI using HTML, CSS Grid, and Flexbox, improving layout load times by ~30%
 -  Integrated CSS variables for theme consistency and enhanced accessibility with semantic HTML (85+ on Lighthouse)
 -  Added engaging product card hover effects and animations, boosting user interaction
-

CERTIFICATIONS & EDUCATION

Certifications:

-  Front End Web Developer Certification (Scrimba, 2025)
-  React.js Certification (Scrimba, 2025)

Education:

-  M.A. & B.A. in History - Kota University, Kota, India
